

## ESMT MBA Admission Requirements

ESMT accepts solely online applications. To apply for admission to the ESMT MBA program, we ask that you submit the following items:

- curriculum vitae: you should have relevant professional experience of at least 3 years and have proven yourself capable of leading others.
- two letters of recommendation: ESMT requires two letters of recommendation so that we can better understand how others perceive you and get a more concise impression of who you are.
- four essays: through the essays, you have the chance to provide us with insight into your ideas about leadership, your personal and professional achievements as well as your future plans.
- GMAT score (alternatively GRE score): while not being the sole criteria used for admission, the GMAT/GRE score is seen as a uniform and standardized indicator to assess a candidate's capacity to succeed at an intellectually demanding program such as the ESMT MBA.
- official transcript or certified copy of grades from each previously attended university (in English): as the ESMT MBA program is an intellectually demanding postgraduate program, you should have received prior academic training and have an undergraduate degree in the form of a bachelor's or equivalent from a recognized college or university before applying.
- TOEFL, IELTS or equivalent for non-native English speakers: all courses during the ESMT MBA are held in the English language; therefore your English language skills must be sound.
- interview: after an initial screening, selected candidates will be invited for an interview. Interviews are preferably held on campus. This not only gives us the chance to get to know you better, but also allows you to visit our campus and Berlin and to learn more about the School. If the candidate is unable to travel to Berlin, we try to arrange an interview with an ESMT representative or alumnus at a convenient time and place for both the candidate and the interviewer.
- immigration documents: international students from countries from which the Federal Republic of Germany requires a visa should contact their local German consulate to apply for the relevant immigration documents.
